

# Multi-Class Neural Networks

LATEST SUBMISSION GRADE

100%

1. What cost function can be used for a two class problem.

1 / 1 point

☒ `nn.CrossEntropyLoss`

✓ Correct  
correct

☒ `nn.BBCELoss()`

✓ Correct  
correct

2. The prediction step in a multi-class neural network utilizes the same procedure as the softmax function

1 / 1 point

☒ True

☐ False

✓ Correct  
correct
