

# Linear Regression Training

LATEST SUBMISSION GRADE

100%

1. What kind of noise do we add to a linear model ?

1 / 1 point

☒ Gaussian

 **Correct**  
correct

☐ exponential distribution

2. An application of linear regression can be

1 / 1 point

☐ classify house as over priced

☒ Predicting housing prices ( $y$ ) giving the size of the house ( $x$ )

 **Correct**  
correct
