```

what variable contains the image ?

- ◉ a
- ○ b

✓ **Correct**
correct

2. consider the following lines of code from the lab: **1 / 1 point**

```
1    dataset = Dataset(csv_file=csv_file, data_dir=directory)
```

How would you obtain the tenth sample's label:

◉

```
1    dataset[9][1]
```

○

```
1    dataset[9][0]
```

✓ **Correct**
